

## **The Corona Virus scam:**

- 1. I wrote to a friend I was teaching who has direct knowledge and authority in Hungarian security policy here in Hungary and he wrote back with the following statement:**

His reply was:

Hi Chris, I think the situation has to be solved by experts based governmental decisions and disciplined citizens. This is how the whole world will be cured.

Tisztelettel – Dr. X

And to know what my response would be if I had enough courage (for fear of losing a student) to respond and keep the conversation going, you should know that I would parrot Mr. Thomas Sowell on this one:

[The Problem with Intellectuals & Experts-Thomas Sowell](#)

[Dear Pal-last letter.pdf](#)

Hi Pál, on 2020.05.17. you wrote "approachig the end of the crisis, . . ." So it's now 2021.11.17. and the crisis doesn't seem like it's waning anytime soon. That's a year and a half after you expected this situation was going to be resolved. The birth to death ratio hasn't changed for some years now, even despite the family programs.

Someone recently asked about a flyer of mine they found and was wondering what their purposes were and I replied (professionally translated):

[http://www.mediaaccess.hu/userspace/pdf\\_files/A%20mell%C3%A9kelt%20bross%C3%BAr%C3%A1n%20l%C3%A1ttam.pdf](http://www.mediaaccess.hu/userspace/pdf_files/A%20mell%C3%A9kelt%20bross%C3%BAr%C3%A1n%20l%C3%A1ttam.pdf)

The facts remain the same. I now have over 415 links regarding this issue, most of which are in medical jargon from 'experts' from around the globe. Like I said from the very beginning, it's never been about any virus.

<http://www.mediaaccess.hu/index.php?module=sourcepage&id=857&lang=1>

I refuse to wear a mask because expecting a mask to protect you from the corona virus boogie man is like throwing sand at a cyclone fence and expecting the fence to stop the sand (paraphrasing a doctor). I won't wear a mask after 2 years - it's unhealthy.

This week I got sick, probably because I didn't wear the proper attire while riding a horse outdoors; however, you've made it illegal for me to tell anyone that, to be sick.

Hope all is well,

-Chris

<http://www.mediaaccess.hu/index.php?module=sourcepage&id=857&lang=1>

- 2. My neurologist student asked me why I was politicizing this and I responded that it is not I who's made this political. Even after months she refuses to accept**

the facts regarding wearing a mask. A more recent doctor said that expecting protection from a virus with a mask is like throwing sand against a chain link fence. But, that is just one analogy and one that thousands of doctors support. Yes, you'll get some protection, but there's more to the story (paraphrasing). Facts are irrelevant when "...there are urgent 'practical' issues to be confronted, crusades to be launched, or values to be defended at all costs." – Thomas Sowell.

She is a research doctor who refuses to look at the available research and to provide evidence that, one, this virus is so dangerous as she believes, and two, that the mask protects as advertised. Masks are generally worn in acute hospital settings for various reasons and pretty much 100% of the people on the streets wearing them don't wear them properly by any stretch of the imagination, even though that's not the only reason why masks don't do anything against viruses. Someone's making good money with all of these frauds going around.

And although she recognizes various and off-the-charts scandals throughout the country regarding these Covid-19 issues, she agrees with a Hungarian consensus that masks are necessary. Playing football and going to football games without a mask is OK (Our great leader Orban Viktor loves football), but going to concerts is forbidden. Gathering in droves at public transportation stops where many don't wear a mask is OK, but as soon as you venture toward the entrance of the transport vehicle, you must put on your mask, and breaking that code is a very big sin that you should be fined for. Going to restaurants and eating without a mask—in other words, we don't have to make like Muslims—but the staff must wear masks, albeit, usually on or under their chins.

The closing of shops and playgrounds and social distancing and all the rest—at any cost, are all acceptable to save her health, though there is only evidence that these things are causing far more harm than can ever be assessed accurately, and far more harm than a supposed-pandemic of the Covid-19 virus in and of itself has been causing.

The level of inconsistencies is absolutely mindboggling and she refuses to reconcile the conflicts of visions. She is annoyed at people who laugh at her when she is driving her car alone, wearing rubber gloves and a mask. She said that we talked about it many times (I never commented on the in-car-mask-and-glove-wearing—that visual is over the top for me.) and there's no sense in talking about it because I won't change her mind. This is not my religion, it's hers. I want the evidence and she doesn't care about any of it—she said so. Except she did provide me with one example in which she mentioned that one of her colleagues she knows—I think a boss—got sick “because he didn't wear a mask (She thinks that's the reason—with no evidence)”.

By the way, she worked on the Covid-19 ward. She says that I don't know because I'm not a doctor. The pharmaceutical drug historian below pulls the same crap. I can't talk about Russia because I'm not Russian and I've never been there (His wife is Russian and he's been there). I can't talk about Eastern Europe because I came from California, I can't talk about New York because I'm

not a New Yorker, and I certainly can't talk about tomatoes because I've never been one, nor have I been a farmer, just a gardener, which is different, etc.

She says that Americans just want to think about freedom, like the pharmaceutical drug historian says about me, implying that my thoughts are not like the Hungarians who are so concerned about community (If that 'aint oxymoronic, I don't know what is).

The pharmaceutical drug historian said that my flyer is wrong about fascism and about Karl Marx and Giovanni Gentile because I come from the west, even though it paraphrased precisely what Dinesh D'souza said—and he's from India. He doesn't care about that technicality—and repeated his “all of the Americans think” stance immediately after I pointed out that fact. Then I looked up in more detail the information on my flyer and saw that all of the information I could drum up supports what my flyer says in brief, but he says that it doesn't say that and says that I “know nothing”. The very subtle fact that I do know something proves all of their very fundamental premises of the situation and of me to be infallibly wrong. But, no matter, I will stay calm and teach them as long as I can bear it—which will be long, coming from my side. Just this week—August, 17<sup>th</sup>, he called me indoctrinated (That story would be too long and contentious for me to add to this story, which almost no one would be reading much of, so I'll leave it alone.)

My neurologist student says that no Hungarian doctor thinks like the American doctors I showed her do, even though one of the most outspoken on the video came from an African who got her degree in Nigeria and then immigrated to the U.S. Besides, she saw just a few minutes of the video because she wasn't interested in seeing more: [Frontline doctors aim to dispel "massive" COVID-19 "disinformation campaign" on Capitol Hill...](#)

Well, that could be true that Hungarian doctors don't think like the American doctors do, but there may be some simple reasons for that. For one, just in the first weeks of this supposed crisis a Hungarian doctor in Hungary spoke out of lock-step to government policies and commitments and it became a big scandal for weeks (I think it was Dr. József Tamasi.). I can't imagine what happened to that doctor, but he was silenced—maybe he's dead or had to take an early retirement.

Also, it is mandatory by law to wear masks when shopping and riding the public transport. There are also laws that prohibit residents from speaking against the propaganda or to criticize the government's policy stances on the matter or to say that the corona virus thing isn't a crisis—then again, you can't use symbols of Hitler, though no one can stop you from thinking Nazi thoughts—and many do. Another reason that her statement is probable is because American doctors work for patients, or rather, insurance companies who answer to the needs and conditions of local communities (aka individuals living in the community), while socialist doctors work for the state. And you don't need to go any further than to take a few minutes to compare the

conditions of the hospitals, medical equipment and medical staff between the two systems.

Dictators dictate and socialists are lazy as can be, so they have no reason to think about things because the state does it for them. She doesn't know or mention or care about proper diet or hydroxychloroquine or physical exercise or care about those issues. She's simply afraid that she'll get infected even though there are already founded remedies to any concerns she may have, and that's that!

One of my students, a rheumatologist and nice guy who doesn't believe in the hype either, doesn't have patients these days because his staff is forced to work both entrance doors, having anyone who enters the hospital—the run-down hospital—fill out a paper, required by law, that they never traveled, were sick, then they have their temperature taken and a suppository up the ass—OK, I'm kidding about the last one. It takes 3-5 staff members at each of the two entrance ways, and these people are therapists, not even nurses or simple hired hands to do the admissions (And believe you me, I've never seen an admissions area in a hospital in such dire need of repairs.), so they spent some time getting educated and their paychecks are higher (Hungarian standards) for sitting around admitting anyone who walks through the doors, even though the patient count is way down because there are no meaningful staff to serve them and patients don't come in as much because they're scared of the virus.

I told her from the beginning that I know what's going to happen. This is like a tsunami that has been artificially created and in the aftermath of it all of the oligarchs will pick up the pieces from the suicides and businesses that have shut their doors permanently or temporarily and it is they now who will control those businesses and through the "kindness of their hearts" employ their new generation of slaves, by hook or by crook. This is not a crisis that a government should be in control of. In Hungary, they are sending in the military to squash what? Shoot down the virus? Make people stay indoors? We call that martial law where I come from. In the meanwhile, everyone is waiting on the Americans to solve the problem. The reasons why I say it has been politicized are the very basic things this guy from MIT talks about: Vitamine A, C and D - and green tea. My neurologist student had no clue. No one is talking about some very fundamental truths. Every single year Hungary has a urgent pandemic.

### **3. An argument with my student who's a financial broker.**

This is my response, but you can figure out what he says and does by what I've written. He refused to watch any links or articles I sent him, which is the typical habit of a leftist (communist). He says he believes in the free market but the facts do not concur. I told him, "If nothing else, watch these two:

<https://www.youtube.com/watch?v=d6MZy-2fcBw>

[https://youtu.be/3\\_53SyQX2qQ](https://youtu.be/3_53SyQX2qQ)

Please watch the videos and then we can talk, if you'd like to. You say that we need to listen to the scientists, which is good, but following the science would be a better line of reasoning.

Your response was too quick. You either watched them cursorily or didn't watch them at all."

I will be more than happy to watch your hardcore evidence, but it won't be hardcore evidence if it conflicts with logical reasoning. Just one point about that is that you criticized me for not accepting the widespread data (which is controversial by all estimations, has been readjusted more times than Orbán has changed the "Magyarország Alaptörvénye", and the results of that data and the projections are skewed and acknowledged to be so by the very people who started this nonsense, to say the least), but you don't believe that Hungary's data is unbiased. And there are many sets of data that have now been revised over and over, so which set should I focus on?

Socialized health care (which means that the government controls it, and therefore the information that is released regarding it) is by its very nature degenerative in one form or another. Even in the best case scenarios, if the government mandated and controlled healthcare of a population were to be functioning relatively well in that industry, Ok, I can accept that, but at the expense of what else? If you pour your resources into that market, then you'll have to diminish the resources of others - basic economics.

Well, please watch the videos. I have no biases to speak of. You say that you believe in the free market (which implies freedom of speech), but you want someone to go to jail for speaking over the hype; for a low-level Twitter monitor to override a renowned scientist is outrageous. Well, watch the videos and you'll soon find that there are many flaws with your assumptions. You say that you believe in the free market but you're an advocate of the Keynesian model of economics, which, by its very nature is a socialist function that will turn any country as red as any Soviet flag.

Note: I haven't yet read or watched anything he sent because I'm tired of the leftist's ways. They refuse to read or watch my abundance of facts but they want me to watch their more than scant review of biased assumptions.

But I did send him this, since one of his links were from the NY Times. I told him that the NY Time's nickname is the NY Slimes:

#### **4. My argument with my student who is a Pharmaceutical Drug historian!**

Dr. Dobson Szabolcs

<https://www.phoenix.hu/hu/elettoertenetek/dr-dobson-szabolcs>

He said that Dr. Shiva isn't a researcher or a doctor and Millenial Millie is just a dumb stupid girl after I tried to show him a couple of clips, but he stopped after seconds to criticize and protest my initiative.

So, he said that there are only two papers written by Dr. Shiva, which makes him a non-researcher. Well, I was teaching at the time, but I took a couple of minutes to post this following:

Dr. Shiva in less than 2 min: <https://youtu.be/86VJlhw0DQQ>

Thank You Chris, gonna check it out.

Hi Chris, I have just checked out the background of this Shiva guy. In Medline medical paper database only 2 scientific papers are related to this name (Shiva Ayyadurai). It is less than a poor scientific record, it is almost nothing. This guy is NOT a scientist, but a celebrity and entrepreneur at best. Be always careful, when you deal with things you know nothing about, like medical science, because videos can be very misleading. Cheers, Szabolcs

My inner response: Fkn wow! Really? (So I post just a tad bit because these people refuse to hold attention that's more than a couple of seconds.)

He is - he even displayed his diplomas. There's a lot of info

Oh dear God Chris!!!! A diploma does not make a scientist. Scientist is a lay term for researcher, which he is not. Only a spin doctor.

Then I post this:

Chris, those are mostly lectures and other publications not related to medical sciences. You fancy whoever you want, I am just telling you, that this guy is NOT a medical expert.

This other guy says essentially the same things - in a different way:

Perspectives on the Pandemic | Dr John Ioannidis of Stanford University | Episode 1

<https://www.youtube.com/watch?v=d6MZy-2fcBw>

Chris, this is a religious belief from your side in a Trump fan, semi-scientific guy who wants to enter politics. Again, he is NOT a researcher.

See how it goes! Exactly what I teach my students not to do! You know it's fake news when it is void of content! So frustrating to talk to the wall and have it punch you back!

Chris, a political opinion is not science. It is an opinion. He expressed distress over the relationship of politics and industry and healthcare, which are not based on research and science. However, free speech is an asset, no problem with that. Just do not take it as science.

Tell me which parts are true in the scientific meaning of the word.

Right!? You said he wasn't a scientist nor a researcher. Then you said something to the effect that this corona virus story should be left to scientists, experts and governments (you specifically mentioned all three. Science has been entwined with this fiasco (fiasco is what the other doctor called it)), experts - "experts" have done a lot of damage in the course of history. And government - you said government, not I. Who's in government? Politicians! Every doctor and scientist in the socialist world deals with politics directly! Besides, politics runs all of our lives. To leave it out of the argument is like making technical arguments for or against the health of water without talking about H<sub>2</sub>O. Anyway, this is a one sided discussion. I don't have the time to break down all of his work and all of his discussions and tell you which parts are scientific, which are purely political (and true also), and which are a mixture of both. Lots of doctors concur with his assessments. Besides that, my paper doesn't - and never will - focus on just one source. It tries to focus on the bigger picture - mostly, but not exclusively - that this virus thing is a scam.

Chris, you are desperately trying to comprehend the World by using ideological preconceptions because of the lack of any deep, professional knowledge in any field and listen to ideologically possessed people. While ideology can be important, it is definitely not a substitute for specific scientific knowledge. The problem is, that no professional-level discussion can be done in these circumstances, for example in medical issues.

...which is why I am the final editor for scientific research papers that are published, and could not be published without my keen insight - and research skills - and level of communication - and English knowledge - without my help. Several have been published - have been doing it for a few years now - good stuff and fun. Even you said that a diploma doesn't make you a doctor or researcher or scientist - so, even you have implied that anybody can be those things with or without such a paper. I study the stuff regularly - and am even privy to medical books online with an exclusive login account. ..but that's off topic.

<https://www.eventbrite.com/e/vaccines-beyond-vaxx-anti-vaxx-dr-shiva-ayyadurai-tickets-74839193041#>

Chris, give it up, please. You are simply not qualified to understand these issues and believe is possessed guys.

This subject has been beat to death. There are panels of doctors who say this one (of many) doctor is a doctor and a researcher and ..qualified.

Again, this Shiva guy is not a medical doctor and not a scientist. Of course, there are many different views, but to really understand them, you would need to have a medical diploma, which you do not have. Instead, you are desperately scratching the surface not being aware of how much you do not know.

100 dollars for every wrong comment in this vid: <https://youtu.be/86VJlhw0DQQ>

Chris, this guy is a charlatan, trying to sell high dose vitamin C for treating severely ill COVID-19 patients. Next Monday you are gonna give me 1000 dollars (bargain price) for intellectual damage these crap videos caused to my mind. But jokes apart: You are NOT a medical guy and You understand nothing in the field of pharmacy and medical sciences.

The conversation ends now, but HE'S a medical doctor and a researcher according to any dictionary I've ever read! But this subject has gone way off topic!

Ayyadurai's undergraduate degree from MIT was in electrical engineering and computer science; he took a master's degree in visual studies from the MIT Media Laboratory on scientific visualization; concurrently, he completed another master's degree in mechanical engineering, also from MIT; and in 2007, he obtained a Ph.D. in biological engineering from MIT in systems biology, with his thesis focusing on modeling the whole cell by integrating molecular pathway models.[17][18][19] In 2007, he was awarded a Fulbright U.S. Student Program grant to study the integration of Siddha, a system of traditional medicine developed in South India, with modern systems biology.[20][17]

**Today, 2021.May.08. my student, who is a pharmaceutical something or other, deleted the following blog when I responded to his post of this picture: Below that picture, he has several posts, most of which have the usual no substance information - likes or dislikes. I don't know, but I posted the following, and he apparently deleted it! Only communists and Nazis and Muslims hide stuff, burn books and information. I've been meaning to post more stuff that he bizarrely criticizes - "this doctor and that is not a doctor and I can't talk about this and that because I'm not a doctor" (nor is he). Anyway, it's bizarre. This is all that I wrote: According to the CDC (the people promoting the non-science masks and the experimental narcotics [technically, by US law, these are illegal drugs], etc.). Glenn Beck \_ Agenda 21 is not a fiction, it's implemented right now in US and all over the World ! The Truth About Vaccines (2013) [Documentary], \_\_\_Anonymous- Agenda 21 Explained\_\_\_). This year and this lie was planned decades ago. A student showed me

Hungarian law that says I cannot be forced to take the biological experimental drugs (which are not vaccinations). Yea, but I can't go to the store without a rag over my face – that has only harmful efficacy, as shown in a study by Stanford: Facemasks in the COVID19 era: A health hypothesis:

[http://www.mediaaccess.hu/userspace/pdf\\_files/facemasks.pdf](http://www.mediaaccess.hu/userspace/pdf_files/facemasks.pdf) and I can't travel outside my bubble without a card – that has no scientific value whatsoever, only political ones. #### **5. This student is an anesthesiologist who suggested that we go through this article regarding the corona virus.**

I asked her if she had watched or read ANY of my links and immediately she said “No” without any hesitation. Well, I am posting this article here to show again, the unwillingness from many of my students, even especially by those who are professionals in medical-related fields, but seem so obtuse when it comes to evaluating the facts, to look at some categorically flagrant errors within something that is assumed to be empirically evidenced-based. The reason why I'm saying this now is because I'm going to evaluate just a couple of things about this article. Although some of it is informative, much of it is blatantly false and written as though a first year high school student wrote it. I don't know if these glaring errors were simply overlooked or more deliberate, but the very premise of the article is wrong from the gate.

<https://www.bbc.com/news/health-52446965>

This is the introductory paragraph to the article.

**Corona virus is a completely new infection in people. Nobody had immunity to the virus at the start of the pandemic, but immunity is the key to getting life back to normal.**

Note: The corona virus was discovered in the 1930s and I can't find out how old it is estimated to be, but I suspect that the corona virus has been around since before the birth of man. With the next sentence, using the 'Nobody had immunity....' wow, that's quite a broad sweeping statement, and can only be assumed to be true without foundation.

Maybe it would have been better to introduce this article with something like, “Covid-19 seems to be a relatively new infectious disease in people / As far as I can tell, Covid-19 seems to be a relatively new infectious disease in people. It seems to be an abnormally / extraordinarily

infectious virus that ... . There are 6 known corona virus types, one of which is the recently discovered COVID-19....

NOT 'Nobody had immunity...' because that is an assessment that simply can't be verified.

Then it goes on to say "but a recent study found people testing negative for corona virus antibodies may still have some immunity."

Note: "One recent study"? Only one? I want information! What am I going to do with only "ONE"?

Note: Anyway, I don't have time to go through the whole article and some of the information in it certainly adds to a collection of information that someone interested in this topic might find useful, but we should be wary of such an article.

Remember, my student says that she didn't read, watch, or listen to any of the more than 115 links I've already collected, but she wants us to read an article that is blatantly off kilter from the very start.

**This same student also, a couple weeks later, showed me another article:**

### **[Comparison of Reported Deaths From COVID-19 - and Increase in Total Mortality in Italy](#)**

When I started to ask her questions about its validity and I questioned the numbers and how the information was produced and again asked her if she watched or read another video or was interested in more facts (that will put into question the entire premise of this article, just like it would have done with the previous one if she were interested in reviewing confirmed facts—for anyone who'd like to evaluate the information empirically), she simply said, "No", "I don't care", "I gave you the article and you can read it with me or not." She didn't care to understand the numbers she was reading or the assumed facts. She didn't care if it was factually accurate information or not. This phenomenon was mentioned in the letter I wrote to Wendell when I quoted Thomas Sowell on some fundamentals about this mental condition.

**When medical personnel are so intent to learn medical nuances so closely related, from anesthesiology to corona virus realities and ignore some very fundamental methods to verify the facts—it's called empirical evidence—well, you know you belong to a communist state. She doesn't care! She said it herself! She doesn't care what reports or news feeds she read, but finds unrealities that can be refuted very easily if you stay up to date on the topic.**

**This student was recently in vitro fertilized thanks to the Hungarian socialist policies that attempts to "promote" family population and growth by offering tax payer "free-fee) hospital services—not to mention the rest of the crap.**

#### **6. This student is an IT Project Manager.**

Just like the other commies listed above, he has a very hard time staying focused or reading or watching real documentation and real, educational information without squirming in his seat, and without interrupting every 30 seconds and or go to either a similar topic or another topic altogether to detract and convolute the topic. I do my best to make sure it's not due to boredom, but mostly I've concluded that it's due to their years of indoctrinated bull crap and unwillingness to evaluate things logically. So, my student says that this video I showed him is supported by the T-Party, which 'obviously' implies that all of the doctors in it—all 9 of them—well, they are all lying. Yea, sure, the Dr. Orbán Viktor's regime is keen on all things corona and these nine doctors are automatically biased and irrational because they are T-Party affiliates, even though not one of them has stated they are.

So, while we are in the first minutes, he pulls up this following article to prove that the stupid black lady doctor isn't real and is voodoo. Well, I don't have time right now to go through all of the details, but please have a look and see if this article qualifies as a resume. You know, my favorite investigative journalists usually go to the person that they're investigating—or at least someone close to the investigation, to get more insight. Not in this case, for sure.

**7. Another student is making his employees, which includes plenty, wear masks, not due to governmental regulations, but due to his own beliefs. I tried to explain to him the fake nature of the corona virus crisis (lie), but he wouldn't have any of it. He read one of my short letters I sent to a 'friend' in California, but abruptly stopped my encouragements for him to see the mounds of evidence that I've collected, most of which is shown in this documentation. He said that I can show my truth based on what I want to show and someone else will have another truth. I challenged him on that notion and reiterated that this is not 'my truth', just 'the truth'. I explained that anyone can show me their evidence, but they never do after I challenge them to do so—I'll be happy to look at anything someone wants to show me, but no, I don't have an open mind on the topic—I already have enough. That said, I'll look at what you have to give me and if it proves to be different from my stuff, I'll show you why it's wrong (which is the definition of how to examine evidence empirically). So what does he do? He sends me the following article. Notice the subtitle?**

**The Science of This Pandemic Is Moving at Dangerous Speeds:** Much of the research that emerges in the coming weeks will turn out to be unreliable, even wrong. We'll be OK if we remember that.  
**'will turn out to be unreliable, even wrong. We'll be OK if we remember that'**

**And look at the vague and scant content!!**

**I wrote him back:**

You're a funny guy. Typical leftist response. You want me to look at your assumptions, but refuse to look at the overwhelming evidence that invalidates your position. My documentation documents some of this phenomenon. I will look at yours if you look at mine - that's a fair deal, right?

Even in your article, the title is the following:

The Science of This Pandemic Is Moving at Dangerous Speeds  
Much of the research that emerges in the coming weeks will turn out to be unreliable, even wrong.  
We'll be OK if we remember that.

**will turn out to be unreliable, even wrong. We'll be OK if we remember that (Martian language for - 'we'll be OK with that').**

**will turn out to be unreliable, even wrong. We'll be OK if we remember that (Martian language for - 'we'll be OK with that').**

**will turn out to be unreliable, even wrong. We'll be OK if we remember that (Martian language for - 'we'll be OK with that').**

**will turn out to be unreliable, even wrong. We'll be OK if we remember that (Martian language for - 'we'll be OK with that').**

**So, the whole thing you sent is based on a false premise - and you don't care!!!!!!!!!!!!!! As the empirical evidence mounts, your argument gets weaker!**

Very typical. I'm already responding to a bizarre video I shared with my student - it's in Hungarian. He doesn't see the irony of it, either. I put it up as an exercise for critical thinking. Who cares about critical thinking?

Here's a paragraph I'd like you to (re-read) remember and understand!

Thomas Sowell addresses best a particular phenomenon in his book *A Conflict of Visions* that I've touched on when he says:

When there is a conflict of visions, those most powerfully affected by a particular vision may be the least aware of its underlying assumptions—or the least interested in stopping to examine such theoretical questions when there are urgent “practical” issues to be confronted, crusades to be launched, or values to be defended at all costs.

#### The Corona Virus Scam:

It would be better for you, your business and your community if you delved into this matter in a more serious way. :)

The following link is about the global warming/cooling/change lie. By using The Least Squares Method we can graph the numbers pretty much anyway we want to. The new phenomenon of the corona virus is being calculated in the same way. For example, most people believing that this pandemic is so serious as to warrant the shutting down of world economies don't seem to have very much care or insightfulness for or of the history of diseases and deaths and then the comparative trends against the current COVIDj-19 lie.

A student sent me this one just above. This is my response: I got it, thanks - the mask does nothing. Social distancing is wrong, isolation is wrong. She could be a double agent - very good - she says to do the research and that research has already been done and is on-going. However, there is clear evidence that this whole thing with her has been orchestrated. I don't know this lady, so perhaps she's telling the truth or part truth or her information about the future of the virus is not great. She says that "this is a huge pandemic we have seen in the world (the largest pandemic it sounds like she wants to say) - yea - "it's more than everything we know in human history .."and then she goes on. First of all, it's not the biggest in human history - the reaction to it is. It sounds like she came out of the communist rule book about deception. First of all, she cannot possibly have all of the information to say "this is the worst we have ever seen in the world. If she's a virologist, she would surely know how weak her mask statement is." Double agent, innocent victim, perfect scientist set for a

lucrative and perfect place to spy on US soil? Hard to say. Sympathize, but don't trust!  
Remedies are already available but there is an unrelenting pushback from oligarchs.

let's go all the way to the whole truth....you can't catch a virus, you have to be injected by it...no one has ever isolated this specific 'virus'....and the tests are totally bunk so how do they know what they are actually treating....it's all so insane and convoluted.

276. \*[American Frontline Doctors](#)

277. According to the CDC (the people promoting the non-science masks and the experimental narcotics [technically, by US law, these are illegal drugs], etc.) (17 min; according to CDC:  
<https://odysee.com/@SeekingTruthAruba:c/AmericanFrontlineDoctors:3>) Under the age of 20, the survival rate is 99.997%. Ages from 20-49, the survival rate is 99.98 %. 50-69 the survival rate is 99.5%. This is with no treatment. Over 70, the survival rate approaches 95% - with no treatment. The dirty little secret is that it's even better than that. If you take early treatment, asymptomatic or very mildly symptomatic or completely recoverable. Why would you even consider taking this drug? Study Agenda 21; videos on YouTube: Glenn Beck \_ Agenda 21 is not a fiction, it's implemented right now in US and all over the World ! [The Truth About Vaccines \(2013\) \[Documentary\]](#); \_\_\_\_\_Anonymous- Agenda 21 Explained\_\_\_\_\_). This year and this lie was planned decades ago. A student showed me Hungarian law that says I cannot be forced to take the biological experimental drugs (which are not vaccinations). Yea, but I can't go to the store without a rag over my face – that has only harmful efficacy, as shown in a study by Stanford: [Facemasks in the COVID-19 era: A health hypothesis](#):  
[http://www.mediaaccess.hu/userspace/pdf\\_files/facemasks.pdf](http://www.mediaaccess.hu/userspace/pdf_files/facemasks.pdf) and I can't travel outside my bubble without a card – that has no scientific value whatsoever, only political ones. Is telling the population that they must get vaccinated to save their lives science? No! It's Nazism! Is telling the population that if they get 3.5 million vaccinated that the stores will reopen science? NO! It is, though, the definition of FASCISM! Is telling people that they can go back to the movies if 4 million people get vaccinated Science? NO, it is, however a part of the following stories that you have been forced to be in (Please look them up!): Az élőhalottak éjszakája (film 1958); Az elpusztíthatlanok (They Live; film 1988); Z világhaború, Max Brooks, Alkonyzóna, Rod Serling; Az éhezők viadala, Suzanne Collins; Eight O'clock in the Morning, 1963; Külvélemény, Philip K. 302. [\\*Project Immanuel:](#)

In this video we would like to introduce Project Immanuel, which critically examines the scientific background of the so-called "Corona Crisis." With the help of the natural scientist and virologist Dr. Stefan Lanka, all fundamental publications on SARS-CoV-2 and COVID-19 are closely scrutinised and scientifically examined in a series of posts. Our main objective is to make science understandable to everyone. All the necessary technical terms and scientific procedures of virology and microbiology that one needs to know and understand are explained in a way that is easy for everyone to comprehend and illustrated with many examples.

This is a scientific project. This means, for one thing, that although we are very critical of all that has been done and has happened in the Corona crisis, we always remain neutral. We do not take sides with anyone, nor do we condemn anyone. We analyse everything from a purely scientific medical point of view.

It also means that we emphatically ask you, the viewer, not to simply believe any of our statements! On the contrary, doubt, be critical and question us. Anyone who can refute our statements is hereby cordially invited to do so, but should do so with tangible, verifiable facts. If we have really made mistakes, we are happy to correct them.

Behind Project Immanuel is a small group of independent filmmakers who want to help bring into the public domain scientific facts that are ignored by the majority of people only because they do not conform to the predominant worldview and accepted consensus.

Look at yourselves. You look stupid, simple sheep. You don't even know what a virus is and you don't care how this lie is affecting your lives.

Nézzének magatokat. Hülyének nézenek, egyszerű juh. Azt sem tudja, mi a vírus, és nem is érdekli, hogy ez a hazugság hogyan befolyásolja az életét.

**Dear Mr. President Donald J. Trump:**

Chris,

Don't be silly. Wearing a mask makes a lot more sense than dying from this virus. Please do what makes sense from a health standpoint.

Conspiracy theory:

WELL PLAYED CHINA....

SCENE 1 : The curtain opens: China becomes ill, enters a "crisis" and paralyzes its trade. The curtain closes.

SCENE II. The curtain opens: The Chinese currency is devalued. They do not do anything. The curtain closes.

SCENE III. The curtain opens:: Due to the lack of trade of companies from Europe and the USA that are based in China, their shares fall 40% of their value.

SCENE IV. The curtain opens:: The world is ill, China buys 30% of the shares of companies in Europe and the US at a very low price. The curtain closes.

SCENE V. The curtain opens: China has controlled the disease and owns companies in Europe and the US. And he decides that these companies stay in China and earn \$ 20,000Billions. The curtain closes. How is the play called?

SCENE VI: Checkmate!

ReAmazing but true

Two videos have passed between yesterday and today that convinced me of something I suspected, but had no basis. It was just my speculation. Now I am convinced that the coronavirus was purposely propagated by the Chinese themselves.

At first they were too prepared. Three weeks after the start of the roll, 14 days and a 12,000-bed hospitals were already under construction. And they really built them in two weeks. Awesome.

Yesterday they announced that they had stopped the epidemic. They appear in videos celebrating, they announce that they even have a vaccine. How could they create it so quickly

without having all the genetic information? Well if you are the owner of the formula it is not difficult at all.

And today I just saw a video that explains how Deng Xiaoping gave the west a half stick. Due to the coronavirus, the actions of Western companies in China fell dramatically. China I just hope, when they went down enough they bought them. Now the companies,

Created by the USA and Europe in China with all the technology put in by these exchanges and their capital they passed into the hands of China, which is now rising with all that technological potential and will be able to set prices at will to sell everything they need to the West. How are you?

None of this could have happened by chance. China who cared that a few old men died? Fewer old-age pensions to pay, but the loot has been huge. And right now the West is financially defeated, in crisis and stunned by the disease. And without knowing what to do.

Masterfully diabolic. It had to be the communists. |

Adding to this, they are now the single largest owners of US treasury with 1.18 trillion holding surpassing Japan.

An instrument that has seen the most rally

One prospective & Analogy....

How come Russia & North Korea are totally free of Covid- 19? Because they are staunch ally of China. Not a single case reported from these 2 countries. On the other hand South Korea / United Kingdom / Italy / Spain and Asia are severely hit. How come Wuhan is suddenly free from the deadly virus? China will say that their drastic initial measures they took was very stern and Wuhan was locked down to contain the spread to other areas. Why Beijing was not hit? Why only Wuhan? Kind of interesting to ponder upon.. right? Well ..Wuhan is open for business now. America and all the above mentioned countries are devastated financially. Soon American economy will collapse as planned by China. China knows it CANNOT defeat America militarily as USA is at present THE MOST POWERFUL country in the world. So use the virus...to cripple the economy and paralyse the nation and its Defense capabilities. I'm sure Nancy Pelosi got a part in this. . to topple Trump. Lately President Trump was always telling of how GREAT American economy was improving in all fronts. The only way to destroy his vision of making AMERICA GREAT AGAIN is to create an economic havoc. Nancy Pelosi was unable to bring down Trump thru impeachment. ....so work along with China to destroy Trump by releasing a virus. Wuhan,s epidemic was a showcase. At the peak of the virus epidemic. ..China's President Xi Jinping...just wore a simple RM1 facemask to visit those effected areas. As President he should be covered from head to toe.....but it was not the case. He was already injected to resist any harm from the virus....that means a cure was already in place before the virus was released. Some may ask....Bill Gates already predicted the outbreak in 2015....so the chinese agenda cannot be true. The answer is. ..YES...Bill Gates did predict. .but that prediction is based on a genuine virus outbreak. Now China is also telling that the virus was predicted well in advance. ....so that its agenda would play along well to match that prediction. China,s vision is to control the World economy by buying up stocks now from countries facing the brink of severe ECONOMIC COLLAPSE. Later China will announce that their Medical Researchers have found a cure to destroy the virus. Now China have other countries stocks in their arsenal and these countries will soon be slave to their master...CHINA.Now here is an interesting conspiracy theory if you

Ok, everyone wants to talk Corona virus... let's talk about it. Let's talk about how China was fighting against the Hong Kong protesters that were waving American flags and praising Trump.... gone. Let's discuss how Trump has been tough on China and trade and theft of intellectual property. Now China threatens to withhold the ingredients for medicines. Let's talk

about how the democrats and main stream media have blamed Trump for everything since he was elected and have come out and said they hoped the stock market would crash to make him look bad. Let's talk about how we had a Harvard professor of bio chem working secretly for the Chinese and getting paid really well, while lying about his connections. We all have seen what these leftist college professors have indoctrinated our young people and how nasty they've been towards anyone that supports Trump. We've all seen how far the left and dems are willing to go to regain power and how the media has been used to promote their fake stories. Now we see them blame Trump for a Chinese virus and use the dem media to scare people and destabilize our markets. Let's talk about the Chinese girl that they're looking for, that they think is now back in China , that had access to our defense department and military. How about the Chinese guy they busted at the airport with vials of bio materials hidden in his sock! How about the Chinese driver that was discovered working for Feinstein? Let's talk about how there's not more talk about protests in Venezuela. How about the fact that there's a bio lab in Wuhan, near that market they blamed and the professor had ties to that lab. Now China is trying to blame the virus on our military... makes no sense...since when do we have troops in China? How about Nancy Pelosi trying to sneak in abortion funding into the funding bill for the virus. Let's talk about all the scandals that aren't being talked about now.... like Hunter and Joe Biden's corruption in Ukraine or how Nancy and Schiff abused power in congress to continue this never ending witch hunt against our President. So all you sheep,..go ahead and beat each other over toilet paper. You're now getting a taste of socialism at it's finest. Lack of supplies, waiting in line, media scaring everyone while screwing the economy and only telling you what they think you should know. Let's look at Italy where they're not going to treat the elderly because it's too much and they want to treat the young people.. there's your socialized death squad medicine for you. Go ahead and panic like dems want. The rest of us that are still sane and are the last bastions of common sense aren't going to panic, We're not falling for the BS and yes, we will still vote Trump!

Igen, ez egy átverés. Az igazság egy apró eleme, sok képzeletbeli hazugsággal. Sajnos túl sok információ van a fordításhoz, de van néhány dokumentum is már-ha lesz rá lehetősége olvasni vagy nézni, nagyon fontos információja van. Egy szórólapot készíték erről a kérdésről, de ez még egy hónapra nem lesz kész, és sokan közületek nem tetszik, mert a nyelv valószínűleg meglehetősen dúrva lesz. Nekem már 14 szórólap készült, amelyek már a kormány korrupcióján és a deviza kölcsönbotrányokon alapulnak, de ez az új a Corona vírus és a Corona Viktáturus király által az ügy kiaknázására épül. De hadd mondjam el, hogy tudod, hogy valami hamis hír, ha nincs lényege. Például nem kell, hogy fizetjem a plakátokat az átkozott országban, hogy elmondjam, hogy kezet kell mosnom.

Yes, it is a scam. A small element of truth with a lot of fanciful lies. Unfortunately, it's too much information to translate, but there are a couple of documents that have been. I am making a flyer about this issue, but it won't be ready for another month, and many of you make not like it because the language will probably be quite hard. I do have 14 flyers already made that are based on the government corruption and devisa loan scandals already, but this new one will be based on the Corona Virus and King Corona Viktáturus' exploitation of the matter. But let me just say that you know that something is fake news when it's without substance. For example, I don't need me to pay for posters all over the damn country to tell me that I need to wash my hands.

## Birkaország

Hej, de messze birkaország  
hol temérdek birka él  
Birkanyájban rézkolompon  
birkanótát ráz a szél

Birka nem lehet akárki  
bégetni is tudni kell  
És ki juthat legelőre  
friss füvet csak az legel

Jóllakottan birkaházban  
birkaágyon elterül  
Birkatévén birkaműsört  
bámul rendületlenül

S hogyha kell, hát felvonul  
és zászlót lenget lelkesen  
Önként és dalolva táncol  
a birkanyíró versenyen

Birka ország büszke népe  
Birka öntudattal él

Kecskenépnél, szárnyasoknál  
Egy birka mégis többet ér

Birkaiskolát kijárva  
jár a birka oklevél  
Birkabárban bőrkabátban  
lelkesít a birkacél

Birkaország újra szép lesz  
Birkaország újra nagy  
A birka burka ára drága  
Hát büszke légy, ha birka vagy

Birkaszellem mámorában  
egyesül a birkanép  
És minden igaz birka béget  
A birkaélet a szép  
A birkaország miénk  
Bár jól be van kerítve  
nekünk virágzik itt a rét!  
- Na kapd beeee

### Coronavírus fertőzés újoncokban.

Wenzel, R. P. és mtsai. (Departments of Internal Medicine and Pediatrics, University of Virginia School of Medicine, Charlottesville, Virginia): American Review of Respiratory Disease, 1974, 109, 621—624.

1965 óta ismert, hogy a **corona-vírus** emberben felsőlégútbetegség okozója lehet. Epidemiológiájáról keveset tudunk, mert a vírus csak szervkultúrán tenyészik. Kimutatása újabban serológiai próbákkal történik. A szerzők 1972-ben közölték, hogy a polgári lakosok hűléses megbetegedéseinek 4<sup>0</sup>/<sub>0</sub>-a a **coronavírus** fertőzéssel volt kapcsolatos. 1970—1972 években matrózújoncon végeztek hasonló vizsgálatot. Légúti fertőzést ez a vírus az első 2 évben csak 0—5<sup>0</sup>/<sub>0</sub>-ban okozott, a harmadik évben azonban egy hűléses járvány kapcsán a matrózok 52<sup>0</sup>/<sub>0</sub>-ának a vérsavója lett coronavírus-pozitív, a heveny légútbetegséggel kórházban ápoltaknak pedig csaknem 100<sup>0</sup>/<sub>0</sub>-ában volt kórokozó a **coronavírus**.

DID YOU KNOW THAT...

2300 years ago, long before Islam, Arabs discovered that forcing people to cover their nose and mouths, broke their will and individuality, and depersonalized them. It made them submissive.

Then Islam turned it into the woman's symbol of submission to Allah, the man owner of the Harem, and the King.

Modern psychology explains it: without face we don't exist as independent beings. The child looks in the mirror between the ages of two and three and is discovered as an independent being. The mask is the beginning of deleting individuality.

He who does not know his history is condemned to repeat it... c&p
