

There is one antiabortion pledge President Trump hasn't kept: his promise to defund Planned Parenthood.

Instead, federal funds to the women's health-care and abortion provider grew during the first two and a half years of his administration.

Government reimbursements and grants to Planned Parenthood hit record levels in the group's fiscal years starting in 2017 and 2018, according to its most recent financial disclosure, even as the administration and Republicans in Congress and around the country endeavored — mostly unsuccessfully — to cut the provider out of government revenue streams wherever possible. Planned Parenthood won't release its next fiscal report until the end of the year.

The funding increases stem largely from the Medicaid program.

Medicaid payments have long formed the bulk of federal funds flowing to Planned Parenthood, reimbursing its clinics for providing birth control and preventive services to low-income Americans. The provider reported \$616.8 million in government revenue in its most recent report, which was for the 2018-2019 fiscal year. That's up from \$543.7 million when Trump took office in 2017. About half of Planned Parenthood's patients are on Medicaid, according to the organization.

Obama cut women's health money in Texas for the state's targeting of Planned Parenthood. Trump just restored it.

The Trump administration announcement reverses an Obama-era decision in 2012 to cut federal women's health funding to Texas. That came as punishment after the Texas Legislature excluded Planned Parenthood from the Healthy Texas Women program in 2011.

The Trump campaign is touting its anti-abortion record. It could preview what a second term could bring.

The bottom line is that he NEVER defunded Planned Parenthood

He NEVER locked up Hillary and the other thugs!

Where in the Constitution does it say that the President's job is Health Care? IT WAS NEVER HIS JOB AND IT WAS NEVER A NATIONAL SECURITY ISSUE!

I have a dedicated website to the corona virus lie and the experimental biological agent. Please follow the links. „A few kinks?” „A few kinks?” Jaj, jaj (Is what we might say in Hungarian.)

Vaccination at any cost? What was the cost? Someone told me to look up the polio vaccination history because he claimed that I am an anti-vaccin. Well, I did check it out – You want to talk about a few kinks,” The whole story is one big nightmare of a few kinks – similar to the history of psychiatry.

This year was planned decades ago as described in the United Nation's Agenda 21 and it's sequel, Agenda 2030. I have several videos on the issues. They are, in fact, sterilization programs so that young couples who want children will have far fewer, none at all, or will have to ask the government for intervention to get it done. IT IS PURE EVIL!

Back to Trump: He spent too much time appeasing the enemy. The USA is now a puppet of China. Trump's job was to protect from foreign and domestic enemies – I knew about the voter fraud years ago – he took his eye off the ball. The border wall? I was totally for it, but the wall has subsequently been rendered useless. The list is huge. He had no legal authority to step down from his post, for instance, under the circumstances!

I have a pdf called The Corona Virus Scam and it has more than 350 links, mostly medical, but also some disgusting trends. The reason why the world is still wearing masks (I don't and never did, but I get threatened every day about it. A big reason why it's still popular is because TRUMP, WITTINGLY OR NOT – IT DOESN'T MATTER – PROMOTED IT!

Lastly, I should have suggested for you to first watch the video „The Emperor Has No Clothes,” which is medical, and follows the original story-line of the story linked below it!!

I wrote this in PDF because I didn't know how long it would take for me to explain some of the most basics.
